Other Projects

- Morse Code Translator: Apr. 2026

A Morse Code Translator is a tool or application that converts normal text into Morse code and Morse code back readable text. Morse Code is a communication method that uses dots (.) , dashes (-) and spaces to represent letters ,numbers and symbols. "In this project, **JAVA** is used as the **backend**, and **HTML, CSS**, and **JAVASCRIPT** are used as the **frontend**."Morse code is used in military communication, ships, aircraft, and emergency services to send messages using dots and dashes. It is also used in radio communication and signaling through light or sound.
